Engineering solutions for Your business. Together

## Complete solutions for installation projects

RAP Instal is backed by a team of professionals specializing in installations, accompanying you at every stage of installation realization: from consultation and design to execution and maintenance.

## Experts in installation systems

RAP Instal provides complete solutions for any type of installation system for industrial halls. We will assist you in every step of your project - consultancy, design, execution, maintenance and service.

# Why RAP Instal?

## We put **safety and efficiency** at the top of our list.

Over the past 10 years, we've fine-tuned our processes, making sure to work with keen attention to detail and the needs of our clients.

### 70+ completed projects

With extensive global experience across diverse industries, we take pride in our numerous satisfied customers.

Rap Instal has successfully executed projects in countries including Bulgaria, France, Belarus, Hungary, Germany, and Luxembourg.

### Strategic approach

RAP Instal clients enjoy integrated services, in a unitary approach, thanks to the multidisciplinary expertise of RAP Group.

### Zero accidents on site

We have our dedicated HSE (Health, Safety, and Environment) and Quality department that has formulated a robust safety program aligned with ISO standards.

### Reliable partners

We deliver on our commitment to build safe projects, on time and on budget.

# What drives us

## Healthy partnerships

Whether we're engaging with clients, collaborators, or colleagues, our aim is to foster trust-based relationships. We believe in transparent communication and unwavering commitment as foundational elements in these interactions.

## Continuous growth

There's perpetual room for improvement, and there's always an innovative, out-of-the-box solution for challenging situations. As explorers of innovation, we consistently strive to uncover the most efficient path to optimal results.

## Technological excellence

We've formed teams of dedicated professionals who are passionate about technological innovations and consistently attentive to details in their work.

## Safe installations, extensive expertise

Our international experience has instilled in us the ability to adapt to any context, always in search of the optimal solution for the challenges we encounter.

RAP Instal, a company of the RAP Group, specializes in constructing various types of installation systems for both industrial halls and civil constructions. With over 10 years of experience, our team of professionals has been consistently delivering comprehensive solutions, encompassing design, implementation, and inclusive consultancy services.

# Services

## Electrical installations

We'll support you at every step of your project - consultancy, design, execution, maintenance and service.

### High voltage installations

- aerial and underground power lines
- transforming stations
- 20 kV and 110 kV substations
- aerial and underground
- connections at a nominal voltage of 0.4 kV
- electrical automation and air conditioning installations
- lighting and power electrical installations
- lightning and earthing installations
- execution of electrical panels
- reactive energy compensation installations

### Low voltage installations

- fire detection and alarm installations
- voice data installations
- CCTV installations
- access control installations
- burglary alarm installations

## Mechanical installations

### HVAC installations

- instalații de încălzire și răcire, instalații ventilație și climatizare
- centrale de tratare aer și instalații de ventilație și distribuția aerului
